

# Purpose

---

In a context of prayer and worship, *Hope Imaging* will participate in activities and instruction prepared to enhance their cultural intelligence through the comprehension of their personal global perspectives.

# Objectives

---

**By the conclusion of the CQ Training Hope Imaging will have:**

- Experienced meaningful time in worship, praising God and ministering to one another through prayer.
- Identified feelings/reactions that can result when confronted by cultural differences and realized the need for understanding and training in order to better carry out cross-cultural relationship building and ministry.
- Analyzed a global understanding of Cultural Intelligence and its importance in forming/re-forming our cultural worldview.
- Understood and experienced the need to differentiate between Biblical truth and cultural expression.
- Analyzed their personal values and how they affect their perspective of the values of others.
- Recognized that each of us deals with prejudices, confronted them and gained tools that will help “transform our minds to transform the way we live.” (Romans 12:2)
